Data source used in this analysis:

American Community Survey 5 year estimates for 2014 were utilized in this report. Note that data are based on *estimates* from the American Fact Finder survey. Margins of error are not readily available but can be calculated as needed for this custom geography.

American Fact Finder tables referenced in this report: B01001, B03002, B08201, B11001, B15001, B17001, B25041, B25063, S2301, S2401 S2501, S2504, and S2506.

www.Factfinder.census.gov

Where there is insufficient data it is reported as NA.

Geography used in this analysis:

Census areas and NSPs frequently do not have congruent borders. The map on the cover was used to determine which census tracts to include in the following Lindsay Heights, “WAICO-YMCA” NSP analysis.

Census tracts: 84, 85, 86, 1854, 1855 and 1859 were used to define the geographic area for WAICO/YMCA in this report.

Boundaries are consistent with NSP boundaries at the time analysis was begun.

Introduction

This report was prepared by Data You Can Use with the support of the Nonprofit Center. It is the result of input and advice from community organizers working in the neighborhoods supported by Milwaukee's Community Development Block Grant program. Nine Neighborhood Strategic Planning areas were chosen for the development of this profile and partners met to describe the data they wanted –data that would be useful to them in their planning, organizing, and fund development work. They also helped guide the format. Two early prototypes were developed, discussed and adapted to provide this report. Related training (on the use of census data from the American Fact Finder Survey and open source mapping) was conducted and offered to the neighborhood partners. A final draft was reviewed and neighborhood organizers shared the ideas, stories and strategies that they derived from the data.

This *is* “data you can use” they concluded. It can be used with their staff, their partners, their funders, their elected officials and the residents of their neighborhoods. It can be used to supplement and support the stories and anecdotes of residents, to build a case for needed resources, and to identify more questions.

Each of the nine reports are posted on our [website](#). Plans are underway to expand this effort to additional neighborhoods and to explore how the data can be made interactive. There is also an identified “wish list” for additional data that would help the organizers tell their story. The content and format are better because of the input of the neighborhood organizations and organizers who contributed. Thank you. In particular, we would like to acknowledge the persistence and stewardship of Joyce Mallory of the Nonprofit Center of Milwaukee. Without Joyce’s efforts, this project would not have come to fruition.

Population by Race

87% of Lindsay Heights residents are African American compared to 39% citywide.

Population by Race	Lindsay Heights		City of Milwaukee	
	Count	Share	Count	Share
Population	8,888	100.0%	598,078	100.0%
