*Source: HUD- Affirmatively Furthering Fair Housing. The school proficiency index is a function of the percent of 4th grade students proficient in reading and math on state test scores for up to three schools within 3 miles of November 2018 the block group centroid (www.hudexchange.info) The higher the score, the higher the school system quality is in a neighborhood. Classification Method: Jenks Natural Breaks (6 classes) based on the geographic distribution of the data at the census block-group level.
