

Access to Quality Schools

Esri, HERE, Garmin, © OpenStreetMap contributors, and the GIS user community

*Source: HUD- Affirmatively Furthering Fair Housing. The school proficiency index is a function of the percent of 4th grade students proficient in reading and math on state test scores for up to three schools within 1.5 miles of the block group centroid (www.hudexchange.info) The higher the score, the higher the school system quality is in a neighborhood. Classification Method: Jenks Natural Breaks (6 classes) based on the geographic distribution of the data at the census block-group level.
