Data source used in this analysis:

American Community Survey 5 year estimates for 2017 were used in this report. Note that data are based on *estimates* from the American Fact Finder survey. Margins of error are not readily available but can be calculated as needed for this custom geography.

American Fact Finder tables referenced in this report include: B01001, B08201, B11001, B15001, B17001, B19013, B25041, B25063, B25087, S2301, S2401, S2504, S2411, and S25002.

www.Factfinder.census.gov

Where there is insufficient data it is reported as NA.

Geography used in this analysis:

Census tracts: 163, 169 and 170 were used to define the geographic area for the Muskego Way Neighborhood, and are indicated in shaded blue on the cover. The neighborhood boundaries are identified by Cesar Chavez Drive (16th St) to the west, Becher St to the south, Layton Boulevard (27th St) to the west and Greenfield Avenue to the north. These are displayed with a orange square on the cover map.

Introduction and Background

This report was prepared by DATA YOU CAN USE, INC. The framework is based on input and advice from community organizers working in the neighborhoods supported by Milwaukee's Community Development Block Grant (CDBG) program. In partnership with the Nonprofit Center of Milwaukee, nine Neighborhood Strategic Planning (NSP) areas participated in the design and development of this template. Partners met to describe the data they wanted – data that would be useful to them in their planning, organizing, and fund development work. They also helped guide the format.

This *is* “data you can use” they concluded. It can be used with their staff, their partners, their funders, their elected officials and the residents of their neighborhoods. It can be used to supplement and support the stories and anecdotes of residents, to build a case for needed resources, and to identify more questions.

The process was replicated and refined for three neighborhoods participating in the Building Neighborhood Capacity Program (BNCP) and additional specialized data requests were added. In February of 2017, organizations representing the Zilber Neighborhood Initiative reviewed the templates, refined their geographic boundaries and requested additional specialized data. This report is a product of that process and after review by the neighborhood organization it will be posted on our website, DataYouCanUse.org.

Plans are underway to expand this effort to additional neighborhoods and to explore how the data can be made interactive. There is also an identified “wish list” for additional data that would help organizers and residents plan their strategies and tell their story. The content and format are better because of the input of the neighborhood organizers and residents who contributed. We welcome your feedback.

Thank you.

Muskego Way Neighborhood Profile Narrative

This narrative is intended to introduce the following Muskego Way Neighborhood Portrait created by Data You Can Use, for the Milwaukee Christian Center in order to inform the targeted activities taking place through “Muskego Way Forward”.

This map shows the Muskego Way neighborhood boundaries identified with an orange line, over a shaded blue area, which acknowledges the area for which the data is analyzed. This is a limitation encountered when using census data and tracts, and all data in this report comes from the 2017 American Community Survey conducted by the U.S. Census Bureau.

Population and Household Composition:

Just over 14,000 people live in the Muskego Way neighborhood. Three quarters (75%) identify as Hispanic or Latino. The next largest group (17%) is White. The remaining 9% are a combination of other races. Compare to the city, this neighborhood has more Hispanics and Latinos; 75% compared to 18%; fewer Black or African Americans 5% compared to 39% city-wide; and fewer Whites 17% compared to 35%. (Table 1).

Youth 17 and under make a higher percentage of the Muskego Way population than in the City of Milwaukee; they account for just over a quarter (26%) of the City’s population, while they are one third (33%) of the Muskego Way population. Overall, 51% of the residents of Muskego Way are male and 49% are female, while city-wide 48% are male and 52% are female. (Table 2)

Overall, residents of Muskego way are poorer than city residents as a whole, with 39% of residents living below the poverty level (\$24,000/ year for a family of four) compared to 27% city-wide. Children under 11 years of age make up 32% of the residents of Muskego Way living below the poverty level, while they makeup 28% of city residents living under the poverty level (Table 3).

The residents of Muskego Way live in 4,371 households. There are 2,951 family households, which is 68% of all households, compared to just over half (55%) of households in the City of Milwaukee. As for the distribution of family households in Muskego Way, 54% are married-couple families, 32% are female led with no husband present, and 15% have a male householder with no wife present. Compared to the city, the percentage of all households that have a female householder with no husband is the same (21%), and the percentage of household with a male householder is slightly higher (10%) vs 6% city-wide (Table 4).

Employment and Income

Working age people, ages 20-64, account for 7,729 residents of Muskego Way. The median income by household in Muskego Way is \$26, 942, lower than the city-wide median income of \$38,289. The unemployment rate, which measures people who are currently seeking work, for Muskego Way residents is 7%, slightly lower than the city unemployment rate of 9%. However, the percentage of

people not in the labor force, not working, and not actively seeking work, is higher: 32% of Muskego Way residents compared to 24% of residents citywide. Combining these rates shows us that overall more (39%) of working age Muskego Way residents are not working, compared to 33% of working age City residents. One of the subgroups that contributes to this is the over half (53%) of female Muskego Way residents with children under 6 who are not working, compared to 36% city-wide. (Table 5 and 6)

There are just over 5,000 residents of Muskego Way who are over 16 and employed. The highest share of these work in service occupations (29, followed by production, transportation, and material moving occupations (28%). Another third (32%) work in the sales and office occupations and the natural resources, construction and maintenance occupations. The remaining 11% work in management, business, science and arts occupation, which tends to be the most highly compensated industry. A much smaller share of Muskego Way residents work in this industry compared to the city; 11% compared to 31%. (Table 7) **The overall median earnings in Muskego Way are much lower than the City, \$22,053 compared to \$29,128. Median earnings are lower in each occupational category, and the largest difference is for “Management, business, science and arts occupations” which is frequently the highest category for income. Muskego Way residents’ median earnings are 60% of the median earnings in this category for City residents overall.** (Table 8)

Education

There are approximately 9,400 residents of Muskego Way who are 18 and over. Over half (57%) have obtained a high school degree (or equivalency). About one in five (20%) have attended some college. A bachelor’s degree is generally considered a proxy for a good paying job, and 3% have achieved a Bachelor’s degree or higher. The age group least likely to have achieved a high school diploma are those residents 65 and older (50%), followed by 35 to 64-year-olds (45%).

The rate at which Muskego Way residents have not achieved a high school diploma is two and a half times the City’s rate- 43% compared to 17%. There is also a strong disparity between the share of Muskego Way residents who have a college degree (Bachelor’s or higher), 3% compared to 21% of residents city-wide. (Table 8 and 9)

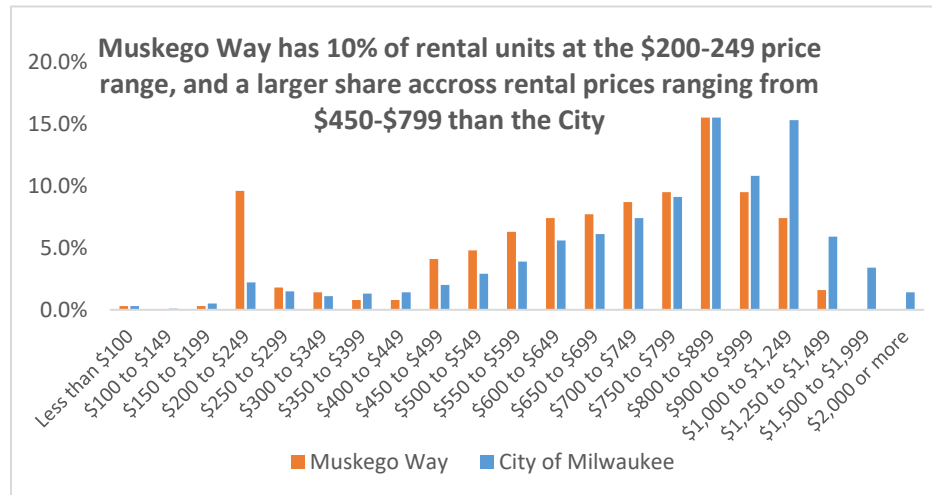

Housing and Homeownership

There are just over 5,000 units in Muskego Way. Occupied units make up 86%, and there are 14% vacant. Of the occupied units, one third are owner-occupied, and two thirds are renter occupied. The city has a lower vacancy rate (11%), and a higher owner-occupancy rate (42%). (Table 10)

The largest share of units in Muskego Way have two bedrooms, these represent 36%. Three bedroom units are another 30% share of units in Muskego Way. Units in Muskego Way have a similar distribution of bedrooms to units across this City of Milwaukee- in no category is there a difference of 5% or over by share. Housing stock is older in Muskego Way than in the City- 69% of units were built in 1939 or earlier compared to 36% of units city-wide. Construction of recent units has also been slow. Housing units constructed since 2000 make up 3%, and construction between 1980-1999 is another 3% of all housing units in Muskego Way. (Table 12 and 13)

Of the occupied units in Muskego way, single-family detached units account for a 38% share in Muskego Way, slightly lower than the city share. These units are 71% owner-occupied; and include the greater

share of owner occupants in Muskego Way. Duplexes account for 38% of units in Muskego Way, and are much more common than in the city, where they account for 20% of occupied units. (Table 11)

Generally speaking, rental rates in Muskego Way are lower than the City, with an outlier where they account for 10% of all rental units at the \$200-249 range. Mortgage costs, for owner occupied housing with a mortgage, are also generally lower than mortgage costs

citywide. The largest share of mortgages for Muskego Way residents are in the \$900-\$999 range (27%), followed by \$1,000-\$1,249 (26%). The highest shares of mortgage costs in the City are the \$1,500-\$1,999 range (22%), followed by the \$1,000-\$1,249 (22%). In the highest category, mortgage costs of \$2,000, includes only 3% of mortgages in Muskego Way compared to 11% of mortgages citywide. (Table 14 and Table 15)

Transportation and Travel time to Work:

Households in Muskego Way are slightly less likely to have a vehicle available than households city-wide: 23% in Muskego Way compared to 18% of City of Milwaukee households have no vehicle available. Households with a single vehicle available make up 37% of Muskego Way households, which is again, slightly lower than the 44% of Milwaukee households with a single vehicle. Households with two or more vehicles make up 40% of households in Muskego Way, and 38% of households city-side. (Table 5)

For commuting to work, 88% of residents in Muskego Way use a car, van or truck. This is consistent with the City of Milwaukee where 85% use a car to commute to work. Commute time to work is a measure used to assess access to and availability of jobs. One-way commutes over 45 minutes are considered excessive. The same percentage of Muskego Way residents have commute times of over 45 minutes as residents in the City of Milwaukee, 9%. (Table 16)

Place of Origin and Language:

Muskego Way has nearly 4,000 residents who are foreign born, who originate almost entirely from Latin America and Mexico in particular. In fact, 96% of the foreign born population in Muskego Way is from Mexico specifically. Related to this, Muskego Way has a large population of Spanish speakers. Monolingual English speakers make up 35% of Muskego Way residents compared to 81% of residents of the City of Milwaukee. Spanish speakers make up the rest of Muskego Way residents (65%), with under 1% speaking other languages. It is important to note that half of the Spanish speakers speak English “very well” and so two thirds of Muskego Way residents speak English “very well”.
